

# YOU'RE INVITED!

## **CMG Financial Presents the All In One Loan™**

What if you could help clients eliminate tens or possibly hundreds of thousands of dollars in excessive mortgage interest payments; freeing up income dollars that can then be put to use in other ways? Wouldn't your clients be better off if they simply paid less for their home and spent more on their wealth building strategies?

Come learn how you can help them accomplish this by introducing them to the All In One Loan, similar to the off-set mortgage product broadly introduced to the market.

### **WE WILL DISCUSS**

- » The possibility of securing a mortgage-free retirement
- » Integration of borrowing and banking into one dynamic financial instrument
- » The potential of building equity faster
- » The opportunity to accelerate payoff of the loan through rental income
- » How principle is paid down first and mortgage interest is calculated after

### **RSVP TO:**
